3. Unit economics — cost per delegate

Hard costs, per person, 3 nights (your figures). "Sharing" = two adults in one room.

Cost line	Member (sharing)	Member (single)	Companion adult	Child
Room + half board	Rs 15,300	Rs 21,000	Rs 15,300	Rs 4,200
Flights + transport	Rs 10,000	Rs 10,000	Rs 10,000	TBC
Core cost / head	Rs 25,300	Rs 31,000	Rs 25,300	Rs 4,200 + flight

Room maths: a double is Rs 10,200/night for **two**, so a second adult adds only Rs 3,200/night over a single. **Sharing is far cheaper per head** (Rs 15,300 vs Rs 21,000 solo) — worth actively encouraging.

Event cost (members only) — marquee rental, AGM catering / coffee breaks, gala upgrade + décor, alcohol top-up, AV. This is a lump sum ÷ members = a per-member levy. **This is the one input we don't yet have.** Sensitivity:

Event budget / member	Member ticket (sharing, +5% buffer)
Rs 2,000	≈ Rs 28,700

Rs 3,000	≈ Rs 29,700
Rs 5,000	≈ Rs 31,800

4. Ticket pricing (revenue model)

Model: **expenses per head → add a small buffer → gross ticket sold to attendees**. Break-even is the priority; the buffer becomes a modest surplus if numbers hold, or absorbs overruns. Illustrative below uses **Rs 3,000/member event levy + 5% buffer** — swap the levy for actuals once known.

Ticket	Build-up	Gross price
Member — sharing	$(15,300 + 10,000 + 3,000) \times 1.05$	≈ Rs 29,700
Member — single	$(21,000 + 10,000 + 3,000) \times 1.05$	≈ Rs 35,700
Companion adult (no AGM)	15,300 + 10,000, at cost	≈ Rs 25,300
Child (shares room)	4,200 + flight	Rs 4,200 + flight (TBC)

At ~120 members, a 5% buffer ≈ **Rs 1,400/head → ~Rs 170,000 cushion** — enough to soak up a catering or marquee overrun, or land a small surplus.

Paid optional add-ons (priced separately, not in the ticket): spa treatments (10–30% off, TBC) · tours & activities · traditional fishing trip · lunch (if not bundled) · extra drinks (all at –50%). **Possibly free:** hotel daily activities for companions / kids.

5. Written summary

Round Table Mauritius can hold its **2027 AGM at Cotton Bay Resort & Spa, Rodrigues, over three nights, 13–16 May 2027**. The AGM itself runs **outdoors under a marquee for ~100–150 members**; spouses, partners and children join the trip but not the sessions, and the resort's 88 rooms house up to ~176 adults.

The commercial model is built **expenses-first**: each member's hard cost is **~Rs 25,300 sharing** (room + half board Rs 15,300 + flights and transport Rs 10,000), or ~Rs 31,000 in a single room. Adding a modest event levy and a 5% buffer puts an **indicative member ticket at ~Rs 29,700 sharing** — priced to cover costs with a small cushion rather than to profit. Companions pay ~Rs 25,300 at cost; children are room-rate plus flight. Drinks are –50% across the board with BYO wine and spirits free, and spa, tours and the fishing trip sit outside the ticket as paid add-ons.

The one missing number is the **event budget** (marquee, AGM catering, gala, alcohol) — once that lands and we have a rough member/companion split, the ticket price firms up and the booking sheet goes live.

6. Open items

- Event budget** — lump sum or per-member for marquee + AGM catering + gala/décor + alcohol. Converts pricing from indicative to final.
- Rough split** — members vs companions vs children, to set the per-member levy and test room capacity (176-adult ceiling vs 100–150 AGM).
- Lunch** — bundle into the package or sell as an add-on.
- Spa discount %** — confirm the 10–30% band.
- Child flight fare** — Air Mauritius child rate (lower than adult).
- Late Sunday checkout (~18:00) and deposit / cancellation terms** — in writing.
- Free hotel daily activities** — confirm what's offered for companions / kids.

Note: the 88-room figure comes direct from the marketing director (public listings say ~60); worth one line of written confirmation, since accommodation is the real capacity ceiling if companions attend in numbers.
